

# EMBEDDED ETHERNET DEVELOPMENT KIT QUICK-START GUIDE

## Installation

1

Insert Development Kit CD in CD-ROM Drive.

**Note:** If autorun does not launch the introduction window, run "*autorun.exe*" directly from the CD.

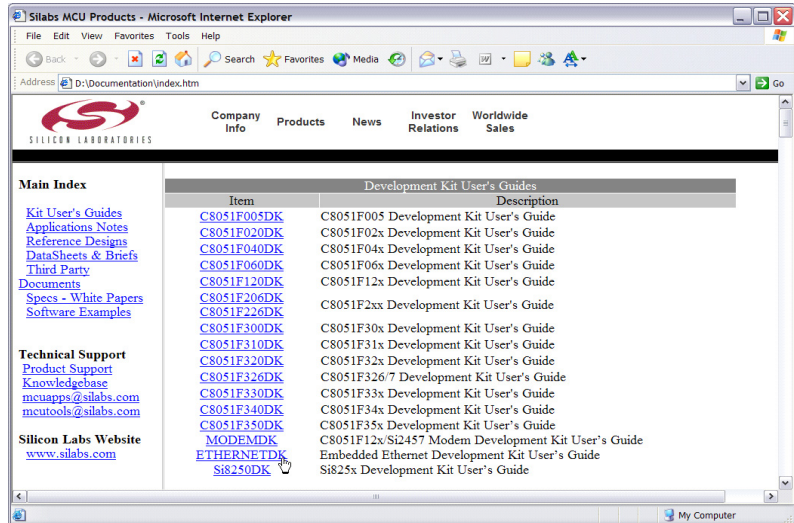

2

Browse Documentation.

3

Select "ETHERNETDK" to launch the User's Guide.

4

Follow the instructions in the User's Guide. To setup the hardware, install the software, and complete the Embedded Ethernet Demo.

- If you are having trouble installing the development kit, please use the following support resources:
1. See TCP/IP Embedded Ethernet Development Kit User's Guide (included on the development kit CD).
  2. MCU Knowledgebase (available from [www.silabs.com](http://www.silabs.com) → SUPPORT).
  3. Code examples included in the Examples directory (C:\Silabs\MCU\Examples).
  4. "AN237: TCP/IP Library Programmer's Guide" (included on the development kit CD).
  5. Contact an Applications Engineer using the online information request form (available from [www.silabs.com](http://www.silabs.com) → SUPPORT).
