

# CP210x EVALUATION KIT QUICK-START GUIDE

1

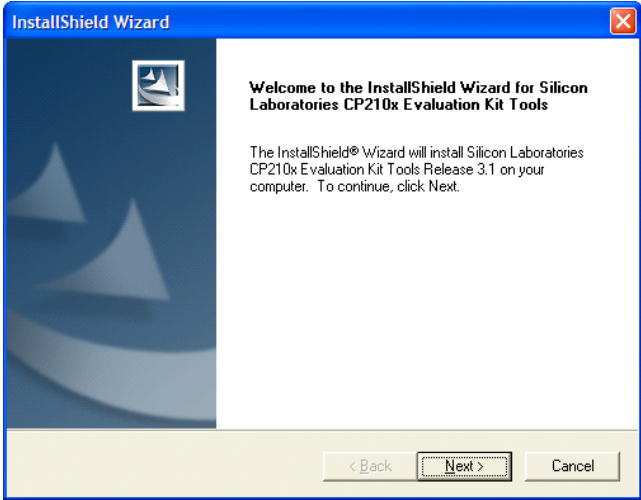

Insert CP210x Drivers CD into a Windows PC.

**Note:** If autorun does not launch the introduction window, run *CP210x\_Drivers.exe* directly from the CD.

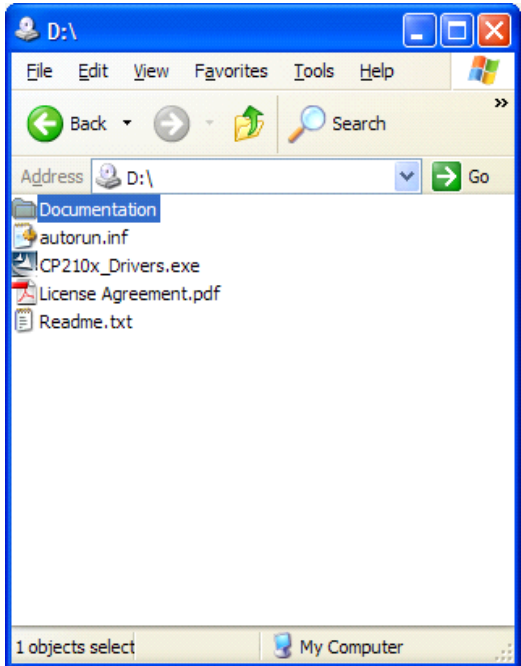

2

Follow the on-screen instructions to install the driver.

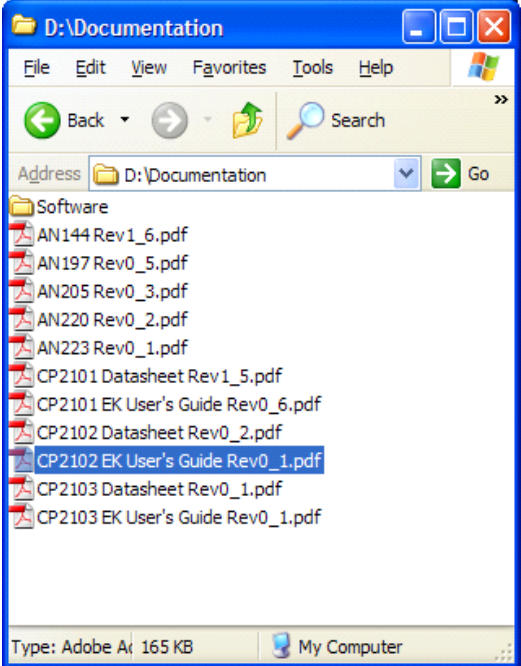

3

After installation is complete, browse to CD's Documentation directory.

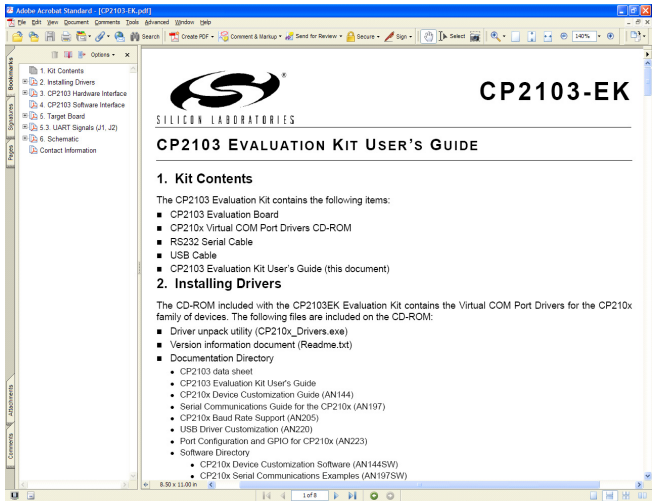

4

Open the User's Guide for your kit.

5

Follow the User's Guide for instructions to use the evaluation kit.

If you are having trouble installing and/or using the evaluation kit, please use the following support resources:

1. MCU Knowledgebase  
(available at [www.silabs.com](http://www.silabs.com) → SUPPORT)
2. Contact an Applications Engineer using the online information request form  
(available at [www.silabs.com](http://www.silabs.com) → SUPPORT).
